ACHIEVEMENTS

- Certificate of Appreciation,
  PrepLeaf by Masai

PROFESSIONAL SUMMARY

Dynamic Frontend Developer with strong proficiency in React.js, JavaScript, HTML, and CSS. Adept at creating responsive, scalable, and high-performance web applications. Proven ability in integrating frontend with APIs and harnessing Generative AI for superior solutions. Quick to learn new tech stacks.

PROJECTS

1. Zara-Clone | ⊕ | 🔘

React | RESTful APIs

- Developed features such as user authentication, product listing, and shopping bag management using React and RESTful APIs.
- Implemented responsive UI components with Chakra UI to enhance user experience.
- Managed client-side routing with React Router for seamless navigation.

2. Ebay Clone | ⊕ | 🔘

React

- Created a React-based e-commerce platform with functionalities similar to eBay.
- Utilized Vite for a faster development build process and Tailwind CSS for modern styling.
- Implemented custom context and hooks for state management and payment handling.

3. Hulk Fitness App | ⊕ | 🔘

React | RESTful APIs | Responsive Web Design

- Developed a comprehensive fitness app using React and RESTful APIs.
- Implemented responsive designs to ensure optimal usability across devices.
- Integrated video features and search functionalities for detailed exercise exploration.
